

## **Brunch Provider Responsibilities**

Generally 2 different people sign up for each month, a salad provider and a bread provider. As providers, it is your choice to offer a dessert. The brunch coordinator can reimburse your expenses. You will be contacted during the previous week to remind you of your turn. If you realize you are unable to cover your spot on the schedule please arrange a substitution and let the coordinator know.

\* Salad provider should plan for 50-60 people. Large bowls and utensils for serving the salad are available at church. Please check if there is salad dressing available at church and provide if not.

\* Bread provider should likewise provide for 50-60 people. Please have bread sliced and divided in baskets to be placed on the tables before brunch is served. Butter or spread is available at church.

\* To distribute the work of brunches more evenly, please coordinate these responsibilities during your turn:

- setting up 6 tables and chairs, preferably during time between SS and church when there are plenty people to help out
- putting out needed dish ware on serving table, salt and pepper and butter on tables
- putting out the donation basket on the serving table
- putting out water and cups as well as the bread, peanut butter and jelly, all available at church
- overseeing the heating of the soup before and during the worship service
- welcoming and beginning the meal with grace
- serving the soup
- recruiting others to help with cleanup and dividing the leftovers in containers available at church. Often we are able to send extra food home to families or individuals in some particular need.
